

Kiley Dean, Just Like That

On one hand I do believe you love me
but on the other hand im not so sure that everything is so bubbly
its been a while since we fell out
and now we're cool
and I can't do nothing else for you
you hurt me once before
and now I dont want yours

late nite for conversations
fussing fighting headachin
i cant trust you with my heart
just like that you broke my heart
just like that it fell apart
just like that im over it
just like that lets just be friends
(repeat)
Baby yeah its like that

Yeah im single free and happy
i got no time for playing games with you
so boy dont ask me if you can wine and dine me
just like old times
dont even try to press rewind
you hurt me bad before
now I dont want yours

late nite for conversations
fussing fighting headachin
i cant trust you with my heart
just like that you broke my heart
just like that it fell apart
just like that im over it
just like that lets just be friends

I cant go back anymore
cuz I cant forget how you hurt me so bad
before
I really feel for you
but baby I just cant ignore
the way I feel about you
just aint the same anymore

Just like that you broke my heart
Just like that Im over it
Just like that lets be friends
(repeat)
