

# Kill II This, This World

I see the third world, its starving face,  
while the spacecraft probe deep outer space  
I see nations shake hands, with dignity's composure,  
but they're really saying, we're going to fuck you over

I see the purest, social holocaust,  
each colour each creed, is hopelessly lost,  
one more war torn tear, newborn deformed,  
So I say fuck this world, our Mother Nature is a whore

And I Think to myself -  
This World's So Fucked Up - This World's So Fucked Up

One more sick maniac, an overdose on smack,  
Pre-programmed for suicide, more mass homicide,  
we pledge allegiance to hate, The flag of depravity,  
each man answers the call, of greed and corruption for all

And I Think To Myself -  
This World's So Fucked Up - This World's So Fucked Up

What I say, how I feel, is surreal  
This World's So Fucked Up - This World's So Fucked Up
