KillRadio, Bodies

[Originally by Smashing Pumpkins]

Cast the pearls aside, of a simple life of need Come into my life forever The crumbled cities stand as known Of the sights you have been shown Of the hurt you call your own Love is suicide

The empty bodies stand at rest Casualties of their own flesh Afflicted by their dispossession But no bodies ever knew Nobodys No bodies felt like you Nobodys Love is suicide

Now we drive the night, to the ironies of peace You can't help deny forever
The tragedies reside in you
The secret sights hide in you
The lonely nights divide you in two
All my blisters now revealed
In the darkness of my dreams
In the spaces in between us
But no bodies ever knew
Nobodys
No bodies felt like you
Nobodys
Love is suicide
