Kills Gravity, Last

I'd tear my heart out for you Cross a mountain for you I'd give myself up for your sin Open up, I'm falling in

Chorus:
What I feel
What I give
Take from me
What I am
It's the last day of you

I watched the last day of you A lot has passed, I told you The world surrounding us has gone The world surrounding us goes on

Chorus (x2)

Feel my hands upon you
To feel my last touch of you
You feel my breath across your skin
Let go of all you hold within

Chorus (x2)
