

Kim Carnes, Black And White

(Kim Carnes)

You had your life
And I had mine
And together we could
Do it all
We were the greatest black and white
We were every curtain call

You'd walk through that door
With that grin of yours
You were always running late
We'd orde a beer and we'd cheer
What seemed to be our fate

Always and forever
Did we just burn too bright
And I guess things just look better
In black and white

Somebody said
The sweetest thing
Is when love is blind
I couldn't ever see a thing
Without you there all the time

Will you drive me home
Cause it's getting late
And pretend that we still care
And show me the passion
Just one more night
To make me want you when you're not here

Always and forever
Did we just burn too bright
And I guess things just
Look better in black and white

Always and forever
Did we just burn too bright
And I guess things just
Look better in black and white
