

# Kim Mitchell, Love Overtime

I can remember so well  
Moments where love first welled up inside me  
A time we never thought there could be rain in life  
And in that danger zone  
Made  
All our loving but some way  
Somehow I just didn't know  
I delayed  
Our song went drifting by  
I didn't recognize love's face

We danced all night in the summertime  
And I knew you would be mine  
We danced all night into overtime  
When love was so easy to find  
On my way

And now I've learned what we had  
I know I lied to myself  
I guess that lady luck just couldn't wait  
I watched you walk away  
From our moment  
Into some other life

We danced all night in the summertime  
And I knew you would be mine  
We danced all night into overtime  
When love was so easy to find

We danced all night in the summertime  
I didn't see what was so plain  
You don't feel fall in the summertime  
I never felt a drop of rain

Oooo those bridges the burned me  
Oooo the flames when our loving died  
Oooo those lessons unlearned  
Sowed their cold winds so many times

We danced all night in the summertime  
We laughed in the morning sun  
We danced all night into overtime  
Did you see it come undone

When I came back it was long behind  
Didn't love give us a sign  
We danced all night into overtime  
Why didn't we listen to love  
And our hearts

Didn't love give us a sign
