

# Kim Petras, Future Starts Now

Ain't no body gonna stop mi  
Don't you let the music stop now  
You're mu move .... anybody  
Don't give up, the Starts Now

Every body in the morning  
Are taken to another level  
You're mu move .... anybody  
Don't give up, the Starts Now

One day everyone will notice  
The world is yours and you should know it  
So don't let love get out of focus  
Don't give up the future starts now  
I know you can take the pressure  
Turn it into something better  
So take the pain and make it pleasure  
Doon't give up the future starts now

(wersy po francusku)

Ain't no body gonna stop mi  
Don't you let the music stop now  
You're mu move .... anybody  
Don't give up, the Starts Now

Every body in the morning  
Are taken to another level  
You're mu move .... anybody  
Don't give up, the Starts Now

Lose control take control  
Anything you want tonight  
On a roll good to go  
Let the moment blow your mind  
Take your time, take your time  
Baby it don't matter  
Let it ride, let it ride  
Take it to the alters

Let your heart decide  
Let it change your life tonight  
You're almost there  
You can almost touch the light  
If you're lost and you find  
that you need somebody  
in the dark baby  
Don't you know the future starts now

(wersy po francusku)

Ain't no body gonna stop mi  
Don't you let the music stop now  
You're mu move .... anybody  
Don't give up, the Starts Now

Every body in the morning  
Are taken to another level  
You're mu move .... anybody  
Don't give up, the Starts Now
