

Kim Wilde, C

Theres an endless sky and
Its just you and i
Youre close to me
We tried to say goodbye but
But we cant be that strong and let it be
Now I know lifes changed
And we cant expect to have things like they were before
But you want me, I want you
And theres nothing left for us to do
Before the night is through now
Cmon cmon cmon
Cmon cmon cmon
And love me, love me
Cmon cmon cmon
Cmon cmon cmon
And love me, love me
We dont close our eyes were
Looking deep inside and move so slow
Ooh this is making love it
Feels so good
Oh baby dont let go
When the morning comes
Well pray the dawn could never break another day
Then well kiss, say goodbye
And tomorrow Ill be on my way
But before were through now
Cmon cmon cmon
Cmon cmon cmon
And love me, love me
Cmon cmon cmon
Cmon cmon cmon
And love me, love me
