Theres an endless sky and  
Its just you and i  
Youre close to me  
We tried to say goodbye but  
But we cant be that strong and let it be  
Now I know lifes changed  
And we cant expect to have things like they were before  
But you want me, I want you  
And theres nothing left for us to do  
Before the night is through now  
Cmon cmon cmon  
Cmon cmon cmon  
And love me, love me  
Cmon cmon cmon  
Cmon cmon cmon  
And love me, love me  
We dont close our eyes were  
Looking deep inside and move so slow  
Ooh this is making love it  
Feels so good  
Oh baby dont let go  
When the morning comes  
Well pray the dawn could never break another day  
Then well kiss, say goodbye  
And tomorrow Ill be on my way  
But before were through now  
Cmon cmon cmon  
Cmon cmon cmon  
And love me, love me  
Cmon cmon cmon  
Cmon cmon cmon  
And love me, love me
