

Kimbra, Come Into My Head

It's no use
We're gonna have a fight
You've thrown your words
'Round a thousand times

Like a child who can't empathize
You don't speak the language
You don't read my signs

You wanna know what I really think?
You wanna know what I really believe?

There's a fire burning up in here
See the smoke coming out of my ears

Oh no, we both know
More trouble's gonna find us
If we're all alone
I wanna show you what I really mean
But you're always
On the outside looking in

Oh won't you come into my head?
Come inside, lie down in my head?
Oh won't you come into my head?
I just wanna have you up in my head

Look through my eyes
I'm your binocular
And every time you'll get a shock
You'll learn

What's it like to be in my dimension
Let me be the center of your attention

Come listen to the sounds I hear
The quiet prose and
The crack of the snare
Make your mark on my territory
Carve your name in every cavity

Oh no, we both know
More trouble's gonna find us
If we're all alone
Trouble's gonna find you
When you're on your own
I wanna show you what I really mean
But you're always
On the outside looking in

Oh won't you come into my head?
Come inside, lie down in my head
Oh won't you come into my head?

Oh you wanna piece of my mind?
Emphatic and erratic
At the drop of a dime
Oh you want a piece of my mind?
Climatic and dramatic
Like jekyll and hyde
Oh you want to read my mind?
Emphatic and erratic
At the drop of a dime
Oh you wanna piece of my mind?

Blah blah blah blah blah

Like the blood running through my veins
This is my DNA and my chemistry

But from the pews of the congregation
You'll never know the real salvation

You wanna know what I really think?
You wanna know what I really believe?
There's a fire burning up in here
See the smoke coming out my ears?
