

King Diamond, Black Of Night

[La Rocque / Diamond]

[Solo theme : Andy]

I need light, I need light to find my way around this house
Im turning on the chandelier
Nice bright light for me to see

Little footsteps coming from the hallway
Oh No The lights are flickering
Oh No The lights are out

In the black of night, oh its so hard to see
In the black of night, I see the moon
In the black of night, oh the moon is full

[Solo : Andy Mike Andy Mike]

Ha-ha In the black of night, oh its so hard to see
In the black of night, I see the moon
In the black of night, oh the moon is full

My black cat Magic
Mesmerized by something in the hallway
Whos to say whats living in the Darkness?
Who is to say if a black cat can sense it?

[Solo theme : Andy]

I need light, I need light to find my way around this house
Oh Theres a candle
Just a little light So I can see again

Little footsteps coming from the hallway
Auu Auu Something hit me on the head
Auu Auu There it is again

In the black of night, oh its so hard to see
In the black of night, I see the moon
In the black of night, oh the moon is full
In the black of night, oh its so hard to see
