

King Diamond, Is Anybody Here?

[Diamond / Diamond]

Oh the night is here
Its hot tonight
Look into the shadows, oh dont you see
Minute by minute theyre being born around me
I need a little light

In the darkness my eyes cant see
And I got a feeling that someones watching me

Its hot tonight
Listen To the darkness, can you hear it breathe?
I can feel it all around me
I need a little light

In the darkness my eyes cant see
And I got a feeling that someones watching me

Is anybody there? Hiding in the shadows
Is anybody there? Hiding, looking in from the dark

[Solo : Andy]

Help me Help me, what is that I hear?
