

King Krule, Flimsier

She says it seems like these days
Merge as one
Oh, I tried to change them
To better ones
But you called it a day
And now it's through

Don't throw it away
That's what I do

And when the night bleeds
It could love me forever
Maybe that's why, it won't work, it don't work
My eyes were popping out of sockets
On to empty chests

It's been holding the weight
Of the world
It's been holding the weight
Of the world
It's been holding the weight
Of the world
It's been holding the weight
Of the world

When this night bleeds
It could love me forever
Maybe that's why
It don't work, I don't work
My eyes were popping out of sockets
On to empty chests
