

Kings Of Leon, Holy Roller Novocaine

My darling you look lovely
I've come to lay you down
Uncover your head and submit to me
We'll make a joyful sound
I don't care if you're by yourself
Or you're all alone when you need my help
Keep that smile on your pretty face
'Cause you don't have much I can't take away

(Chorus:)
Don't you worry baby
You won't feel a thing
Close your eyes
Holy Roller Novocaine

Lord's gonna get us back (x4)
I know, I know
Lord's gonna get us back (x4)
I know, I know

You'll be hearin' me comin'
But I can't come inside
I'll be out back in my white Cadillac
Won't you join me for a ride
We'll go up to the mountain top
Yeah I'll show all the goods I got
Don't look back keep your eyes ahead
This could be the night that the moon goes red

(Chorus)

All the world is moaning
And baby so am I
I'm just givin' you warning
And I ain't telling you why

Lord's gonna get us back (x4)
I know, I know
Lord's gonna get us back (x4)
I know, I know
Lord's gonna get us back (x4)
I know, I know
Lord's gonna get us back (x4)
