

# Kings Of Leon, Revelry

What a night for a dance, you know I'm a dancing machine  
With the fire in my bones and the sweet taste of kerosene  
I get lost in the light so high don't wanna come down  
To face the loss of the good thing that I have found

Woo hoo hoo  
Woo hoo hoo

In the dark of the night I can hear you calling my name  
With the hardest of hearts I still feel full of pain  
So I drink and I smoke and I ask you if you're ever around  
Even though it was me who drove us right in the ground

See the time we shared it was precious to me  
But all the while I was dreaming of revelry

Gonna run baby run like a stream down a mountainside  
With the wind at my back I won't ever even bat an eye  
Just know it was you all along who had a hold of my heart  
But the demon in me was the best of friends from the start

So the time we shared it was precious to me  
All the while I was dreaming of revelry  
Dreaming of revelry

And I told myself for the way you go, it rained so hard it felt like snow  
Everything came tumbling down on me  
In the back of the woods in the dark of the night  
Palest of the pale, old moonlight  
Everything just felt so incomplete

Dreaming of revelry  
Dreaming of revelry  
Dreaming of revelry  
Dreaming of revelry
