

Kiss, Anything For My Baby

Anything for my baby
I would steal anything for my baby
I'd wheel and deal anything for my baby
Oh

I'm in love and it feels so good
'Cause I need her, don't mistreat her
And I tell her so
When I saw her and she looked my way
I was lonely, she's my only
And I've gotta say that

I would steal anything for my baby
I'd wheel and deal anything for my baby
Crawl or kneel, anything for my baby

In the morning when I raise my head
She's beside me, she can hide me
When I'm feelin' low
If I'm thinkin' everything's all wrong
My girl shakes me, she awakes me
Then I really know that

I would steal anything for my baby
I'd wheel and deal anything for my baby
Crawl or kneel, anything for my baby

Don't you know that
I would steal anything for my baby
I would wheel and deal anything for my baby
I would crawl or kneel, anything for my baby
I'd do anything

I would give anything for my baby
I would die or live, anything for my baby
I would t-t-t-take or give anything for my baby
Yes, I would take anything for my baby
I would build or break anything for my baby
I would rob or take anything for my baby
I would do anything for my baby
I would steal anything for my baby
I would wheel and deal
