

Kiss, Burning Up With Fever

I'm the gift and giver, not a woman mistreater, you know that is no one else
You can have me just one time baby, she said
Baby, I'll give you a chance, 'cos I'm
Burning up with fever, and you're the fever inside
I'm burning up with fever, it's something I can't hide
Sometimes you do me, sometimes you don't, I know, I want you all the time
Here's one thing you should know, I won't, I won't stand in line for your love
Burning up with fever, and you're the fever inside
I'm burning up with fever, it's something I can't hide
Sometimes you do me, sometimes you don't
I know, I want you all the time, but I'm
Burning up with fever, and you're the fever inside
I'm burning up with fever, it's something I can't hide
Burning up with fever, and you're the fever inside
I'm burning up with fever, it's something I can't hide
Burning up with fever, and you're the fever inside
I'm burning up with fever, it's something I can't hide
