

# Kiss, I Still Love You

You tell me that you're leaving,  
and I'm trying to understand  
I had myself believing I should take it like a man  
But if you gotta go,  
then you gotta know that it's killing me  
And all the things I never seem to show,  
I gotta make you see  
Girl it's been so long, (tell me) how could it be  
One of us knows the two of us don't  
belong in each others company  
It hurts so much inside,  
your telling me goodbye, you wanna be free  
And knowin' that you're gone and leavin' me behind  
I gotta make you see,  
I gotta make you see, I gotta make you see

I still love you, I still love you  
I really, I really love you, I still love you

People tell me I should win at any cost  
But now I see as the smoke clears away,  
the battle has been lost  
I see it in your eyes,  
you never have to lie, I'm out of your life  
Tonight I'll dream away and you can still be mine  
But I'm dreamin' a lie, dreamin' a lie, makes me wanna die

'Cause I still love you, I still love you  
Baby, baby I love you, I still love you  
And when I think of all the things you'll never know  
There's so much left to say  
'Cos girl, now I see the price of losing you  
will be my half to pay  
My half to pay, each and every day, hear what I say  
I still love you, I still love you  
I really, I really love you, I still love you  
Baby, baby, I love you, I, I really, I really love you
