Kiss, It's Allright

Oh yeah

I'm pretty good at takin' care myself

I always get enough to get me by So if you're askin' for a little love

Well, baby, there ain't nothin' I won't try

You got me knockin' on wood

I never knew that you could

Well, if you want me to stay for the night, it's alright

It's alright if you want me

It's alright if you need me

Girl, if you want me to stay for the night

Girl, if you want me to stay satisfied

Girl, if you want me to stay for the night, it's alright

I knew the minute that I picked you up
That I would never want to put you down
Don't try to tall me that you've had anough

Don't try to tell me that you've had enough

Until you realize what you've found

I'll give you breakfast in bed You're goin' right to my head

Girl, if you want me to stay for the night, it's alright

It's alright if you want me It's alright if you need me

Girl, if you want me to stay for the night

Girl, if you want me to stay satisfied

Girl, if you want me to stay for the night, well, it's alright

Girl, you know, I'll be leavin' in the mornin'

You got to take what you can

Yeah, you know, that I'm givin' you the warnin'

Girl, it's just a one night stand, yeah

Come over here

Oh, it's alright if you want me

It's alright if you need me

Girl, if you want me to stay for the night

Girl, if you want me to stay satisfied

Girl, if you want me to stay for the night, well, it's alright

If you want me

It's alright if you need me

Yeah, it's alright
