Kiss, What Makes The World Go 'Round

Once I was a fool dreamin' my life away, and then yesterday I found you Lookin' for me, draggin' your heart around at the lost and found I love you, you're the only one who could make me feel love was smart I feel you deep inside of me, beatin' up against my heart And I found out, I found out, what makes the world go 'round Oh I found out, really found out, what makes the world go 'round You came up to me, turnin' my head around, I was hangin' on Until you looked up at me, thrashin' your bedroom eyes, I was paralyzed I love you, you're the only one who could make me feel love was smart I feel you deep inside of me, beatin' up against my heart Chorus:

And I found out, oh I found out, what makes the world go 'round I found out, really found out, what makes the world go 'round and 'round And I found out, really found out, what makes the world go 'round I found out, really found out, what makes the world go 'round Whenever I touch you, you know that I want you I love you forever, whenever you're ready chorus repeats out...
