

KISSIN' DYNAMITE, I've Got the Fire

Get your ass in gear, come on over here, gotta check the news
Chilly days are over, hot Messiah's on the loose
I've come to save you from the cold
And guide you to the light
I'm here to unfreeze your heart

I'm a pyromaniac, fulminating from pole to pole
I carry on the torch and Helldorado is my goal
So darling, scrap your further plans
I know you caught alright
I've seen it right from the start

I've got the fire
I've got the fire
And you may be my dynamite

I've got the fire
I've got the fire
And I can't wait 'till you ignite

I'm gonna burn this place away
'Cause baby there'll be hell to pay

I've got the fire
I've got the fire
And you may be my dynamite

I've got a mission, burning ambition, I come for you
I'll never walk on water but my halo looks brand-new
This is my orchestra ablaze
My theater in flames
To rip this joint is my art

Gotta shed the waste, take heart my dear, leave it all behind
We're gonna fan the ambers so the entire human kind
Sees us rising from the grave
Returning with a bang
We're gonna this apart
