

# Kitty Wells, Blues Are Settin' In

Lonely nights and blues are settin' in can't go on not knowin' where I stand  
While you're here things were so sweet and you made my life complete  
But now you're gone and blues are settin' in  
Kiss me once then I'll go away darling I won't like it but I'll stay  
From now on things won't be sweet you're not here to make my life complete  
Lonely nights and blues are settin' in

Lonely because you never did me right blues because I was such a fool  
Kiss me once then I'll go away...  
[ steel ]  
Lonely because you never...  
Lonely nights and blues are settin' in
