

Kitty Wells, Don't Hang Around He's Married To M

Now that I have him you want him too you left that love when he wanted you
Now that we're happy just let him be don't hang around he's married to me
I know he'll always love you but that's the price I pay
I pray the Lord above you will make you go away
I'll always love him please let us be don't hang around he's married to me
[fiddle]
Until we married he cried for you you broke his heart I thought you were true
Now you have come back with misery don't hang around he's married to me
I know he'll always love you but that's the price I pay
I pray the Lord above you will make you go your way
If you respect him then hear my plea don't hang around he's married to me
