Kitty Wells, Every Step Of The Way

I just return from loving you again and I know how much I'll have to pay

I just got back from losing you again and I cry every step of the way

I just return from falling out again while you brushed me aside so many ways

I just got back from where I've been before and I hurt every step of the way

[steel]

I just return from fallin' out...

Yes I hurt every step of the way
