Kitty Wells, I Apologize

I apologize for the mis'ry that I've put you through

You were happy when I found you I was blue

You believed me and you were right I really fell for you

I apologize for the hurt that I've caused you

I apologize but my words don't say enough you don't believe me but darling please try

If I must lose you I'll let you go but never give you up

I apologize but I'm hurt too much to cry

[steel]

I apologize but my words...
