

Kitty Wells, Queen Of Honky Tonk Street

The lights are low and the jukebox is loud

As we make the rounds among the wild unruly crowd

One honky tonk to another where old friends meet

Got me this name Queen of Honky Tonk Street

Queen of Honky Tonk Street that's next to jukebox lane

You've gave me the name taught me how to play the game

Don't point your finger at me men should understand

That a honky tonk woman's good as a honky tonk man

[guitar]

The slurs at honky tonk angel will they ever end

Most women go honky tonkin' just to please their men

If we had stayed at home away from night life beat

I wouldn't have the name Queen of Honky Tonk Street

Queen of Honky Tonk Street...
