

Kitty Wells, That's Me Without You

A night with no moonlight a day with no sun
A plain with no palace a watch that won't run
A tree with no branches a rose without dew
A song with no music that's me without you
A train with no whistle a car with no gas a well with no water a show with no cast
A love with no future a sky with no blue
A girl with no sweetheart that's me without you
[steel - fiddle]
A bank with no money a pinch with no pin a book with no story a top that won't spin
A chair with no bottom a rig with no crew a ship with no rudder that's me without you
A train with no whistle...
