

Kitty Wells, We Made A Mistake

We made a mistake dear bout playing a cheating game

It's all my fault she's wearing your name

He's taking my place where I should be today

We made a mistake dear and now we have to pay

We had a quarrell I said I didn't love you

I called you a cheater and told you we were through

Too late we are sorry we both made sacred vows

There's nothing left between us we can't turn back now

We made a mistake dear...

[guitar]

If we could only turn back time I'd have you by my side

If we knew then what we know now we'd never said goodbye

We can't change the wrong we've done the mistake has been made

Now we don't have the right to love that's the price we'll have to pay

We made a mistake dear...
