

KIWI, Dissapear

Please tell me why
My demons are
So quiet now
Like they're alright
In brighter light
They sleep so well
But in the night
They haunt me here

Ooo they make me bleed
Ooo take my fear
Ooo and disappear

Is this the time
When i regret
Being the one
In my mothers head
A special girl
From better place
Is now so plain
Oh what a shame

Ooo they make me bleed
Ooo take my fear
Ooo and disappear

I wanna go back to the times when
They didn't make me feel so heartless
Im taking out my shield in silence
Don't wanna feel your fear forever
Ooo they'll be calling you so dumb
They'll be calling you so small
They'll be crawling to you
