KIWI, Dissapear

Please tell me why My demons are So quiet now Like they're alright In brighter light They sleep so well But in the night They haunt me here

Ooo they make me bleed Ooo take my fear Ooo and disappear

Is this the time When i regret Being the one In my mothers head A special girl From better place Is now so plain Oh what a shame

Ooo they make me bleed Ooo take my fear Ooo and disappear

I wanna go back to the times when They didn't make me feel so heartless Im taking out my shield in silence Don't wanna feel your fear forever Ooo they'll be calling you so dumb They'll be calling you so small They'll be crawling to you
