

Klara, The cliff

I would jump into water if I could
From my house, from my house, on a cliff
I would sleep on my hill if I could
Near your house, near your house, on a cliff

Oh, please take me higher, take me your own way
It's time, now I need it, I need to let you in
Going down, going nowhere, never ve been so dark
Please get, get away with me now
Please get, get away with me now

We'll be living in a house on a cliff
With a tower, with a tower in the sky
You can come
If you would ever want
Drink my tea, drink my tea, drink my tea

Oh, please take me higher, take me your own way
It's time, now I need it, I need to let you in
Going down, going nowhere, never ve been dark
Please get, get away with me now
Please get, get away with me now
