

Klaxons, There Is No Other Time

There Is no other time
No other place
No other day
There Is no other time
No other place
No other day
(Cause we're already there)
There Is no other time

I close my eyes
I feel the flow
Everything is moving forwards, let's let it go
I see it clear
It's telling me
Tomorrow is just another story
It's all around
I feel it now
I know that in a moment I can turn around
I see it clear
It's telling me
Tomorrow is standing right in front of me

There Is no other time
No other place
No other day
There Is no other time
No other place
No other day
(Cause we're already there)
There Is no other time

It's in your eyes
Within the flow
Everything is moving forwards, let's let it go
I see it clear
No fantasies
Tomorrow is standing right in front of me
You're all around
I feel you now
I know that in a moment we can turn around
I see it clear
No fantasies
Tomorrow is just another story

In this moments
we're moving forwards
At this moments
Moving forwards
In this moments
Moving forwards
At this moments
Moving forwards

There Is no other time
(In this moment)
No other place
(Moving forwards)
No other day
(Moving forwards)
There Is no other time
(In this moment)
No other place
No other day
(Moving forwards)

There Is no other time
(In this moment)
No other place
No other day
(Moving forwards)
There Is no other time
No other place
No other day
(Moving forwards)
(Cause we're already there)
There Is no other time
