

Kleerup, Let Me In (ft. Susanne Sundfør)

All I want
all I want
is for someone to see me
I got a blank slate
Black brassieres
and a body for hire
I can get anywhere with my wings
and when i reach the top of the building
I'll fly to the borders
Bring them forth
bring them forth
the opposers
i'll shoot them down
i'm a soldier
and i obey orders
Let me in
let me in
I've got a heart of gold
I'll do whatever it takes
just let me come closer
Skin me
make of me a replica
I'll be your page H-21
I'll be your secret lover
Let me in
let me in
I've got a heart of gold
I'll do whatever it takes
just let me come closer
