Koffee Brown, After Party

And you don't stop Keep Keepin' on Keepin' On Keep Keepin' on You don't stop

Welcome to the after party

After the party Let's take a little time And talk about it What's going through your mind? It has me shaking Ooh you look so right I wanna ride See I would be lyin' if I ain't tell you It made me wanna flip And you can't tell me You ain't feelin' that same shit Girl it's our chemistry Like icing on a cake I hope you stay So we can do our thing After the party

CHORUS:

Don't stop, you ain't gotta stop Don't stop, if the music drops Rock with me Get on top, you can take it off What's it gonna be? Don't you want the after party

After the party
Let's go somewhere and finish what we started
Cause right from the beginning
I was on it
I know you felt these thighs
You know I felt you rise
So why don't we slide up off the dance floor
You and me
Cause I wanna know
Just how deep does your lovin' go
So tell your boys goodnight
Cause we're gonna rock, after the party

CHORUS (2x)

Sweet baby come with me Cause I wanna do you right Don't hold back baby Where you at? Cause I wanna get inside

Repeat CHORUS until fade
