

Komodo, Better (feat. MAJA HYŻY x THOMAS S)

Baby you turned on the light
Just when i thought I would lose it
Brought out the sun at midnight
I don't care if it sounds foolish

We can't fight the tide
It would be wrong
Baby with you I know where I belong

Your eyes they don't lie
Everything that I want
Found in a place , I knew all along

You make it better, I could look around the world
but I'd never find - someone like you
Oh You make it better, I don't want nobody else
Never met nobody like you

Girl we will not be apart
Baby we got perfect timing
They can't throw us in the dark
not when our love keeps on shining.

We can't fight the tide
It would be wrong
Baby with you I know where I belong

Your eyes they don't lie
Everything that I want
Found in a place , I knew all along

You make it better, I could look around the world
but I'd never find - someone like you
Oh You make it better, I don't want nobody else
Never met nobody like you

I've never met nobody, nobody, nobody like you
I've never met nobody, nobody, nobody like you

This love , it's a long night
But we . do it right
you're my Paradise yeah
I need you now
This love , it's a long night
But we . do it right
you're my Paradise yeah
I need you now
