

Korn, Never Never

I'll never love again
I won't ever have to pretend
I'm never gonna love again

I don't ever wanna have to try
Though I lie
It never flies
I don't ever wanna have to die
But deep inside
The death it hides
And I never wanna clarify
And justify
So I run and hide
And I never wanna signify
So I pacify
All the hate inside

I'll never love again
I won't ever have to pretend
I'm never gonna love again
If I'm gonna have to try to pretend
Never Never Never

I don't ever wanna satisfy
Cause things inside
Are doing fine
I don't ever wanna multiply
Cause deep inside
I'm not qualified
And I never wanna clarify
And justify
So I run and hide
And I never wanna signify
So I pacify
All the hate inside

I'll never love again
I won't ever have to pretend
I'm never gonna love again
If I'm gonna have to try to pretend
Never Never Never

I'll never love again
I'm never gonna love again
