Korn, Never Never

I?II never love again
I wont ever have to pretend
I?m never gonna love again

I don?t ever wanna have to try Though i lie It never flies I don?t ever wanna have to die But deep inside The death it hides And I never wanna clarify And justify So I run and hide And I never wanna signify So I pacify All the hate inside

I?II never love again
I won't ever have to pretend
I?m never gonna love again
If i'm gonna have to try to pretend
Never Never Never

I don?t ever wanna satisfy
Cause things inside
Are doing fine
I don?t ever wanna multiply
Cause deep inside
I?m not qualified
And I never wanna clarify
And justify
So I run and hide
And I never wanna signify
So I pacify
All the hate inside

I?II never love again
I won't ever have to pretend
I?m never gonna love again
If i'm gonna have to try to pretend
Never Never Never

I'll never love again I'm never gonna love again
