

Koufax, Bright Side

What bothers most lying here awake
Is how absurd you've been as of late
You sleep through the healthiest of our days
With bad Ohio grass headaches
You don't think out loud enough
Perhaps Denial's caused this much...
Always thinking on the bright side
Always thinking on it
The one thing to always trust is fate -
It's irony we can't get straight
And it's funny when the weather has its say -
those three day weekends full of rain
Still the times are hardly rough
And you know you should know this much
Always thinking on the bright side
