

# Krystal Harris, Angel On My Shoulder

So many nights alone  
Without you by my side  
I never knew what  
I was missing  
But then you came along  
With all your special ways  
Bringing me joy, laughter,  
What I was wishing for

[CHORUS:]

My angel  
On my shoulder  
You give me shelter  
You give me love and affection  
Everytime I turn around  
You're still right here  
Angel  
My angel  
Ooh my dear

My wonderful friend  
In times of trouble lend  
When all the rest of  
The world runs away  
You open up my heart  
And make me realise  
You would be the one  
Who would stay

[Repeat chorus]

When things sometimes  
Start looking out  
You're with me  
No matter what  
No matter how  
You seem to find a way  
Sharing your love  
From up above  
You're all I'll ever need  
God must have  
Sent you to me  
Ooh ooh

My angel  
On my shoulder  
You give me shelter  
You give me love and affection  
Everytime I turn around  
You're still right here  
My angel  
My angel  
Ooh my dear

Ooh my dear  
Ooh my dear  
Ooh my dear
