## Kubb, Grow

Who said broken pieces don't mend I say I say to think again

You may take advice from all your friends but I say that I'm living in your head

Chorus
Just let it grow
let it grow inside of you
let it grow
let it flow inside of you
let it grow let it grow let it grow

She said that its easy for men and i said that we all feel the rain then she said move a little closer then who says that broken pieces don't mend

## Chorus

'cause in the garden of reason you can't change what youre given but you can go where the river flows

let it grow grow grow grow let it grow grow grow grow

yeah yeah let it grow

yeah let it grow

life gives you a hand you're playing by the rules you'll never come through it.

life gives you a hand you're playing by the rules you'll never come through it.

('cause in the garden of reason you can't change what youre given but you can go where the river flows)
