

Kungs, Never Going Home

Music, we came through it
Where only you and I can feel it
Music, got me healing
Yeah, that's repeating
Got me feeling

If you wanna ride
Come ride with me
Take me by the hand
Feel the chemistry
Losing track of time
In the ecstasy
It's getting out of hand
It's just you and me

The we are never going home
Let's go dance until the morning
And we are never going home
Let's go dance until the morning

Music, we came through it
Where only you and I can feel it
Music, got me healing
Yeah, that's repeating
Got me feeling

If you wanna fly with me
We'll go anywhere that you wanna be
If you feel down
Here's remedy
Losing track of time
It's just you and me

The we are never going home
Let's go dance until the morning
And we are never going home
Let's go dance until the morning
