

# Kygo, Avicii, Sandro Cava, Forever Yours - Avicii

every time I see your face  
there's a cloud hanging over you  
in such a beautiful way  
there's a fortune to your solitude

you should let me love you  
hold me now, forevermore  
I've been thinking of you  
tell me I am forever yours  
you should let me love you  
hold me now, forevermore  
I've been thinking of you  
tell me I am forever yours

tell me I am forever yours  
tell me I am forever yours

and you won't ever have to try  
to live b everybody else's rules  
it'll be just you and I  
together in the altitude

you should let me love you  
hold me now, forevermore  
I've been thinking of you  
tell me I am forever yours  
you should let me love you  
hold me now, forevermore  
I've been thinking of you  
tell me I am forever yours

tell me I am forever yours  
tell me I am forever yours

tell me I am forever yours  
tell me I am forever yours

you should let me lobe ya, love ya  
you should let me lobe ya, love ya
