## Kygo, Avicii, Sandro Cava, Forever Yours - Avicii

every time I see your face there's a cloud hanging over you in such a beautiful way there's a fortune to your solitude

you should let me love you hold me now, forevermore I've been thinking of you tell me I am forever yours you should let me love you hold me now, forevermore I've been thinking of you tell me I am forever yours

tell me I am forever yours tell me I am forever yours

and you won't ever have to try to live b everybody else's rules it'll be just you and I together in the altitude

you should let me love you hold me now, forevermore I've been thinking of you tell me I am forever yours you should let me love you hold me now, forevermore I've been thinking of you tell me I am forever yours

tell me I am forever yours tell me I am forever yours

tell me I am forever yours tell me I am forever yours

you should let me lobe ya, love ya you should let me lobe ya, love ya
