

# Kygo, Firestone (ft. Conrad)

I'm a flame  
Shot of fire  
I'm the dark in need of light  
And we touch, you inspire  
Will it change in me tonight  
So take me up, take me higher  
There's a world not far from here  
We can die in desire  
Or we can burn in love tonight

Our hearts are like, firestones  
When they strike, we feel the love  
Sparks of light, they ignite our bones  
When they strike, we light up the world  
Our hearts are like, firestones  
When they strike, we feel the love  
Sparks of light, they ignite our bones  
When they strike, we light up the world  
We light up the world

We light up the world  
oooh oooh  
World  
oooh oooh  
Firestone

I'm from X, you're from Y  
With the strangers in the night  
Here we are, come together  
To the world we'll testify  
Our hearts are like, firestones  
When they strike, we feel the love  
Sparks of light, they ignite our bones  
When they strike, we light up the world  
Our hearts are like, firestones  
When they strike, feel the love  
Sparks of light, they ignite our bones  
When they strike, we light up the world

We light up the world  
We light up the world  
oooh oooh  
World  
oooh oooh  
Firestone
