

Kyla, When I'm With You

I like what I see my friend
All our moments and all of the time we spend
The way that you make me feel
When you know my heart wants something
I know we could last till the bitter end
But only if we'll go hand in hand
Cause I know how you make me feel
And you know what it is, that something

[Ref:]
It's so amazing baby been loving you like crazy
So I thank you for your heart and you should know

[Chorus:]
When I'm with you, I don't feel lonely
When I'm with you, heaven is right here in your arms
When I'm with you, my one and my only
I'm in paradise when I'm with you

Forever and another day, that's what people always say
A promise too often broken but I know we will find the way
Cause we've got something a lot of people search
Their whole lives for
And it will never, never, never end cause I just want more and more

[refrain]
[chorus x2]

You make everyday to me another dream come true
I'm just so in love with you baby, baby
It's more than physical, it's a spiritual thang
When I'm with you, my heart wants to sing

[refrain]
[chorus x2]

crbt2('Kyla','When Im With You')
