

# Kylie Minogue, Butterfly

Mm mmm

In the morning I'll wake up with you  
There's not anything I would rather do

You are more than you'll ever know  
And your love teaches me to grow  
You are more than my everything  
And your love gives me wings

Like a butterfly  
And I'll dance in the sunlight  
Like a butterfly  
From the day into the night

Your touch  
Is the one thing I know is true  
My mind  
Is completely devoted to you

You are more than you'll ever know  
And your love teaches me to grow  
You are more than my everything  
And your love gives me wings

Like a butterfly  
And I'll dance in the sunlight  
Like a butterfly  
From the day into the night

And it mightn't last more than a day  
But I'll take my chances anyway  
'cause my heart is saying it's for real  
No-one else has made me feel this way
