

Kylie Minogue, Difficult By Design

It's a heartache
And the happiness
That won't let you rest
It's a pleasure
And the pain that comes
When you love someone
You spend so much time
Trying to get it right
Don't ask the reason why
It's a part of life

[Chorus:]
Our love can be difficult at times
But it was by design
Our love was difficult at times
But it was by design

It's a laughter
Beyond the tears
That you need to hear
But you know that
You can make it through
When a love is true
It feels like a lonely road
You don't know which way to go
How I want you to know
You are not alone

[Chorus]
Love is difficult
But it's by design
Love is difficult
But it's by design
Love is difficult
But it's by design
Love is difficult
But it's by design
Love is difficult
But it's by design

[Chorus 2x]
