

# Kylie Minogue & Dua Lipa, Kylie & Dua Lipa - Real Groove

It's the same  
Old feeling  
Coming over me tonight  
me tonight  
feel it buzzing

said i am never  
gonna call,  
but tonight  
i think i might  
i think i might

gave my heart a ride  
bump in the night  
no one can take me higher

know it's been a while  
baby, a while  
do you still feel the fire?

I saw you dancing with somebody  
Looking like me and you  
She know how to party  
But nothing like me and you  
Got that perfect body  
But she ain't got the moves  
We got something better  
Got that real groove, baby

Major mistake  
No i never shoulda gone  
Baby, i was on the run  
on the run

it was a heartbreak  
i can't stand another day  
knowing that you are the one  
you are the one

gave my heart a ride  
bump in the night  
no one can take me higher

know it's been a while  
baby, a while  
do you still feel the fire?

I saw you dancing with somebody  
Looking like me and you  
She know how to party  
But nothing like me and you  
Got that perfect body  
But she ain't got the moves  
We got something better  
Got that real groove, baby
