

Kylie Minogue, Feels So Good

[Chorus]

It feels so good
I knew that it would
Nothings gonna take this day away
Cos it feels so nice
Oh so right
Nothings gonna take this day away

[Verse 1]

It was only yesterday I tried to get away
But now theres be a major turn-around
I was so very sure what I was wishing for
But now my feet can hardly touch the ground

{Pre-Hook}

Cos the sun keeps shining
Perfect timing
I need something to rescue me
From the ordinary now i'm ready
So come with me

[Chorus]

It feels so good
I knew that it would
Nothings gonna take this day away
Cos it feels so nice
Oh so right
Nothings gonna take this day away

[Verse 2]

I'm where I wanna be
Nothing to bother me
I took my cares and let them all behind
I had to get away deal with them another day
There out of sight and out of mind

{Pre-Hook}

Cos the sun keeps shining
Perfect timing
I need something to rescue me
From the ordinary now i'm ready
So come with me

[Chorus]

It feels so good
I knew that it would
Nothings gonna take this day away
Cos it feels so nice
Oh so right
Nothings gonna take this day away

[Bridge]

Its just what I needed
Some emotional healing
Its a wonderful feeling
Nothing left to lose

[Chorus]

Cos it feels so good
I knew that it would
Nothings gonna take this day away
Cos it feels so nice (feels so nice)
Oh so right (oh so right)
Nothings gonna take this day away

It feels so good
I knew that it would
Nothings gonna take this day away
Cos it feels so nice
Oh so right
Nothings gonna take this day this day away

It feels so good
I knew that it would
Nothings gonna take this day away
Cos it feels so nice
Oh so right
Nothings gonna take this day away
