

Kylie Minogue, Finer Feelings

The finer feelings, the finer feelings

You can't give to me
Anything
I couldn't get for myself
I have needs as much as any man
And I understand the feelings well

I can still have a true heart
With a free mind
A good life
With a good time

[Chorus:]
But what is love
Without the finer feelings
It's just sex
Without the sexual healing
Passion dies
Without some tender meanings
It ain't love
Without the finer feelings

I get passionate
Just like you
But I have a little self-control
You just show your selfish attitude
Your emotion leaves me cold

I can still have a true heart
With a free mind
A good life
With a good time

[Chorus]

The finer, the finer
The finer feelings

(I can still have a true heart) it ain't love
(With a free mind) it ain't love
(A good life)
(With a good time) feelings

[Chorus]

[Repeat and fade]
